

SECOND MEETING OF THE PODIATRY BOARD OF AUSTRALIA 20 OCTOBER 2009

The second meeting of the Podiatry Board of Australia was held on 20 October 2009 at the Melbourne Airport Hilton. The Board is established under the *Health Practitioner Regulation (Administrative Arrangements) National Law Act 2008*.

The main focus of the Board's second meeting was further discussion of the proposals that would be the subject of the consultation process to occur in late October and November around registration and related matters. Following the consultation period, the Board will finalise its position on registration proposals. At its December meeting the Board will complete this work in order to provide the proposals to the Australian Health Workforce Ministerial Council for decision.

The Board acknowledges the tight timetable for completion of the initial part of its work. The timetable is necessary so that all registrants can have advice ahead of the commencement day on 1 July 2010 of the new registration standards and requirements.

The Board agreed that it would undertake consultation in late October on proposals on the following matters:

- the five mandatory registration standards, namely:
 - standards on requirements for professional indemnity insurance
 - matters about the criminal history of applicants for registration
 - requirements for continuing professional development
 - requirements for English language skills, and
 - requirements in relation to previous practice
- specialist registration for podiatric surgeons, and
- an endorsement for scheduled medicines for podiatrists.

The Board initially proposed an optional registration standard on CPR, but has now included CPR as a distinct and additional requirement for continuing professional development.

The Board finalised arrangements for publication of a consultation paper dealing with these proposals on its website, and agreed on a process to notify key stakeholders. The consultation paper will go up on the Agency website (www.aphra.gov.au) on 27 October 2009. Comments on the consultation paper will be due by **24 November 2009** and the Board urges stakeholders to meet this deadline so their comments can be properly considered. Late responses will not be accepted.

The Board further considered proposals for how individual registrants will transition from their current registration to the new registration categories set out in the proposed National Law. The Board settled those matters which did not require Ministerial Council consideration. The Board noted that for the majority of registrants there was a clear category of registration to which they will transfer on 1 July 2010. Registrants will be advised by the Board of the category to which they will transfer well ahead of the commencement date.

The Board acknowledged the further work done in preparation for implementation of the national scheme by the existing State and Territory boards, its accrediting authority, AHPRA and the National Registration and Accreditation Implementation Project team and looked forward to continuing to work with these groups over the coming months.

Jason Warnock
Chair, Podiatry Board of Australia
