[Scanned]

Thank you for the opportunity to provide comments on the above consultation paper which SARRAH supports.

We would like to make a comment in relation to page 6 where it refers to references from a current prescriber. In the document it states that the references must come from a Medical Practitioner or prescribing Podiatrist. SARRAH recommends that references be accepted from any prescriber and not limited to Medical Practitioners and Podiatrists. For example Nurse Practitioners and Dentists should also be able to write references as they are active prescribers at present.

Once again thank you for the opportunity to provide feedback.

Regards

Rod Wellington
