Online applications for registration now open for final year students

Students of podiatry who will graduate soon can go online now to apply for registration as a health practitioner.

An online graduate registration service for final year students was launched by the Australian Health Practitioner Regulation Agency (AHPRA) in May 2011.

The service enables students to apply for registration early before completing their course and aims to smooth the path from study to work in five simple steps.

Online applications for registration are now open. All applications require students to return some supporting documents to AHPRA by mail.

Podiatry Board of Australia Chair Catherine Loughry said graduates of approved programs of study must make an application for general registration if they intend to practise using the protected title 'podiatrist'. Using AHPRA's online graduate application service is recommended.

Mrs Loughry said a graduate of an approved program of study must also meet the National Board's registration requirements to become a registered health practitioner.

New graduate registration standards relate to:

- criminal history,
- English language skills, and
- professional indemnity insurance.

'Graduates need to be a registered health practitioner before they can start practising and are urged to go online and apply for registration four to six weeks before completing their course,' Mrs Loughry said.

There are five simple steps to graduate registration:

1. Students apply for registration 4 to 6 weeks before completing their course at <http://www.ahpra.gov.au/Registration/Graduate-Applications.aspx>
2. Applicants fill out an online application (if eligible) or download an application form. All applications require some documents to be sent to AHPRA by mail.
3. Education providers advise AHPRA when applicants are eligible to graduate

4. AHPRA finalises assessment, confirms registration, publishes new graduates' names on the Register of Practitioners and sends out registration certificates
5. New graduates registered with their profession's National Board are eligible to start working as soon as their name is published on the Register of Practitioners
