Subject: Submission re Consultation paper on a proposed specialist registration standard for the podiatry specialty of podiatric surgery

To whom it may concern

Public Consultation paper on a proposed specialist registration standard for the podiatry specialty of podiatric surgery

The Australasian College of Podiatric Surgeons ("ACPS" or "the College") makes the following comment regarding the consultation document regarding the registration standard for specialist registration of podiatric surgery.

The College notes that the standard takes into account the objectives and guiding principles of National Law (Section 3) and the COAG principles for best practice regulation.

The College looks forward to the finalisation of the speciality standard and thanks the Podiatry Board of Australia for the opportunity to provide comment on this or any other matter concerning the speciality of podiatric surgery.

Yours sincerely

Frank Pigliardo
Vice President
