**Re: Draft Registration Standards for Limited Registration consultation**

Dear Jason,

Thankyou for the opportunity to respond to this comprehensive document; I think it will be very useful to help define the practice of a range of practitioners with varying requirements.

From a University standpoint, the ability to have appropriately qualified overseas-trained podiatrists able to work independently for relatively short durations as teaching/research podiatrists will be helpful in making a case for staff secondments and transfers in the future.

Sincerely,

Dr Adam Bird  
Head  
Department of Podiatry
