

Example of a Supervised practice plan

Supervisee

Last name of supervisee:	
First (given) name of supervisee:	
Registration number (if applicable):	

Supervisor (s)

Name of Supervisor 1:	
Registration number:	
Job Title	
Description of supervisor's role in organisation that is employing or training registrant	

Add more if applicable

Purpose of supervision (tick one)

- Returning to practice after an absence of greater than three years
- Condition on registration or undertaking requiring supervision
- Significant change to scope of practice
- Hold a type of limited registration where supervision is a requirement of registration.

Section 1 – Supervision arrangements

Position:	Podiatrist	
Employer:		
Location(s) where supervised practice is proposed:		
Anticipated supervision commencement date:	1/12/2015	
Anticipated supervision completion date: ¹	1/12/2016	
<p>Nominate proposed commencement level of supervision and expected progressions: (Refer to the 'Levels of supervision' described in the Board's Guidelines for supervision of podiatrists.)</p> <p>It is proposed that subject to satisfactory progress, that supervision will be at Level 1 for one-month full time equivalent (FTE) (160hrs); Level 2 for one month FTE (160 hrs); Level 3 for three months FTE (480 hrs); and thereafter Level 4. Details are provided below.</p>		
<p>Describe how supervision is to be provided:</p> <p>Method: e.g. Face to face (formal and informal); observation and written communication</p> <p>Schedule: e.g. frequency of the different types of supervision and length of time devoted to each</p> <p>Type: e.g. case review; reflection on intervention approaches and techniques used; professional development needs identification and performance feedback/ review</p>		
Levels		Proposed reporting frequency
<p>Level 1: The supervisor takes direct and principal responsibility for individual patients</p> <p>Supervision</p> <p>Formal supervision outside of clinical client/patient supervision will be provided weekly for 30-60 minutes to discuss concerns and progress.</p> <p>Case review will be completed during these sessions.</p> <p>The supervisee will be required to attend staff meetings (bi-monthly) to help develop skills in knowledge of OHS in the practice, consider infection control protocols, develop a number of case studies to present to the other staff that shows</p>		<p>Written Report to the Podiatry Board 1st month</p> <p>(Date Estimate 1/1/2016)</p>

¹ This should correlate to the specified period of supervision in a condition on registration; or an undertaking; or the period of limited registration if applicable

<p>recent research / literature review of areas considered lacking in the supervisee knowledge base.</p> <p>Clinical File Audit (As per clinic protocol) completed monthly to ensure appropriate clinical documentation, Medicare compliance and shared care correspondence is maintained.</p>	
<p>Level 2: <i>The supervisor and supervisee share responsibility for individual patients</i></p> <p>Supervision</p> <p>Formal supervision outside of clinical client/patient supervision will be provided weekly for 60 minutes to discuss any concerns regarding progress in any skill sets or techniques.</p> <p>Supervision goals will be reviewed at the initiation of Level 2 to ensure both supervisee and supervisor understand the learning goals and progress made.</p> <p>Clinical File Audit (as per clinic protocol) completed monthly to ensure appropriate clinical documentation, Medicare compliance and shared care correspondence is maintained.</p>	<p>Written Report to the Podiatry Board 2nd month- (Date Estimate 1/2/2016)</p>
<p>Level 3: <i>The supervisee takes primary responsibility for their practice, including individual patients</i></p> <p>Supervision</p> <p>Supervision will take place fortnightly face to face for 60 minutes. Supervision will involve reflective practice (case studies) and review of current literature in areas of weakness identified by "self reflection" and by the supervisor.</p> <p>Supervision goals will be reviewed at the initiation of Level 3</p> <p>The supervisee will continue to attend staff meetings (bi-monthly) OHS, infection control, case studies, recent research/literature are all standing agenda items.</p> <p>Clinical File Audit (As per clinic protocol) completed monthly to ensure appropriate clinical documentation, Medicare compliance and shared care correspondence is maintained.</p>	<p>Written report to the Podiatry Board 5th Month (Estimated Date 1/5/2016)</p>
<p>Level 4: <i>The Supervisee takes full responsibility for their practice, including individual patients with only general oversight by the supervisor</i></p> <p>Supervision</p> <p>Supervision will take place fortnightly face to face for 30 minutes. Supervision will involve reflective practice (case studies) and review of current literature.</p> <p>Supervision goals will be reviewed at the initiation of Level 4</p> <p>The supervisee will be required to attend staff meetings (bi-monthly) - OHS, infection control, case studies, recent research/literature are all standing agenda items.</p> <p>Clinical File Audit (As per clinic protocol) completed monthly to ensure appropriate clinical documentation, Medicare compliance and shared care correspondence is maintained.</p>	<p>Written Report to the Board at 7 months and at renewal (Date Estimate 1/7/2016 and renewal 30/11/2016)</p>

Section 2 – Capabilities and issues specific to supervisee

Strengths of supervisee	Weaknesses of supervisee
Sports Injury – assessment, treatment, education	Paediatrics knowledge
General foot care – care of client's/patient's feet including nails, corns and callus	Nail surgery skill set – partial/total nail avulsion
Biomechanics and orthotic prescription	'Diabetes foot assessments, risk stratification and education'

Issues to be addressed during supervision (e.g. related to supervision requirements, identified weaknesses, areas for development)

To be completed by the supervisee.

Issue	Measures to address issue	Review date
Paediatrics	Perform full paediatric assessments and consultation for a client/patient at Podiatry Clinic under the supervision of the supervisor	1/1/2016
	Attend relevant Paediatric CPD event / special interest group to further develop my knowledge. These groups are held every 8 weeks in Melbourne or via teleconference, videoconference or webinar	1/4/2016

Issue	Measures to address issue	Review date
	<p>Read and discuss the following articles on Paediatric assessment to further develop my knowledge:</p> <ol style="list-style-type: none"> 1. <i>Reliability of common lower extremity musculoskeletal screening tests</i> www.sciencedirect.com/science/article/pii/S1466853X04000227 2. <i>Hip Range of Motion in Children: What Is the Norm?</i> http://journals.lww.com/pedorthopaedics/Abstract/2012/06000/Hip_Range_of_Motion_in_Children_What_Is_the.14.aspx 3. <i>Methods for Assessing Leg Length Discrepancy</i> http://rd.springer.com/article/10.1007/s11999-008-0524-9 4. <i>The foot posture index, ankle lunge test, Beighton scale and the lower limb assessment score in healthy children: a reliability study</i> http://www.biomedcentral.com/content/pdf/1757-1146-5-1.pdf 5. <i>Normal limits of knee angle in white children--genu varum and genu valgum</i> http://europepmc.org/abstract/med/8459023 6. <i>Normal Development of the Tibiofemoral Angle in Children: A Clinical Study of 590 Normal Subjects From 3 to 17 Years of Age</i> http://journals.lww.com/pedorthopaedics/Abstract/2001/03000/Normal_Development_of_the_Tibiofemoral_Angle_in.27.aspx 	1/4/2016
Diabetes Foot Assessment	<p>Perform a full diabetes foot assessment and consultation for 5 clients/patients at Podiatry Clinic under the supervision of the supervisor. Discuss with the supervisor the outcome of the assessment and complete the required documentation/correspondence with the client's/patient's care team.</p> <p>Complete the International Diabetes Federation free online course on diabetes for health professionals including the assessment to test knowledge</p>	1/1/2016

Section 3 – Supervision goals and plan

Please **complete relevant section/s** as informed by the **relevant competency standard** in the ANZPAC *Podiatry Competency Standards for Australia and New Zealand, 2015* published on the Australian and New Zealand Podiatry Accreditation Council (ANZPAC) [website](#).

Supervision goals (individual learning objectives)	Supervision plan (planned activities)
Specific supervision requirement	
Competency standard 1 - Practise Podiatry in a Professional Manner	
<ul style="list-style-type: none"> - To ensure that my methods of practice are to standard 	<ul style="list-style-type: none"> - The supervisee will be supervised in clinic to ensure that they act in a professional manner. Discussion on best practice will take place with the supervisor - The supervisee will be required to attend staff meetings (bi-monthly) - OHS, infection control, case studies, recent research/literature are all standing agenda items. - Clinical File Audit (As per clinic protocol) completed monthly to ensure appropriate clinical documentation, Medicare compliance and shared care correspondence is maintained.
Competency standard 2 - Continue to Acquire and Review Knowledge for Ongoing Clinical & Professional Practice Improvement	
<ul style="list-style-type: none"> - To expand knowledge in the area of Paediatrics - To ensure that I am up to date with methods of best practice across all areas of Podiatry 	<ul style="list-style-type: none"> - Supervision will involve reflective practice (case studies) and review of current literature - The supervisee will be required to attend staff meetings (bi-monthly) - OHS, infection control, case studies, recent research/literature are all standing agenda items. - The supervisee will undertake research and further reading in areas where they wish to expand their knowledge - The supervisee will continue to see a range of clients/patients at Podiatry Clinic to ensure ongoing clinic improvement

Supervision goals (individual learning objectives)	Supervision plan (planned activities)
Competency standard 3 - Communicate & Interrelate Effectively in Diverse Contexts	
To communicate and interact with a range of clients/patients from different demographics, to ensure I interrelate and care for them effectively	The supervisee will develop their skills as required to provide assessment and treatment for common podiatry presentations at the Podiatry Clinic
Competency Standard 4 - Conduct Patient/client Interview and Physical Examination	
To ensure that my client/patient assessment/interview/examination techniques are up to standard	<ul style="list-style-type: none"> - The supervisee will see a range of clients/patients under supervision to ensure they are capable of conducting interviews, assessment and examinations for all of their presenting podiatric complaints. - Documentation and correspondence will be completed in discussion with the supervisor
Competency Standard 5 - Interpret, Diagnose & Analyse	
To ensure that my ability to interpret, diagnose and analyse are up to standard	The supervisee will be observed assessing; forming differential diagnoses and providing clinical care. A management plan will be discussed with the supervisor prior to implementation. Documentation and correspondence will be completed in discussion with the supervisor

EXAM

Competency Standard 6 - Develop a Patient/Client-focused Management Plan

To ensure my ability to form an appropriate Management plan is up to standard

- At the beginning of supervision all management plans will be discussed with the supervisor prior to implementation
- As time progresses management plans will be discussed with the supervisor in the form of case studies

Competency Standard 7 - Implement & Evaluate Management Plan

To ensure my management plans are implemented correctly and that management plans are reviewed at appropriate standard

- At the beginning of supervision all management plans will be discussed with the supervisor prior to implementation.
- As time progresses management plans will be discussed with the supervisor in the form of case studies

Competency Standard 8 - Provide Education and Contribute to an Effective Health Care System

To ensure contribution to the Podiatry community in a positive way

The supervisee will aim to attend state or National conference to engage with fellow podiatrists and aim to present a paper to the sports special interest groups on treatment and prevention of foot and ankle injuries (considered a specialist area of supervisee) in football.

Additional requirements/documents²

Empty box for additional requirements/documents.

² For example, a log book of care provided

Section 4 – Declaration

I have completed this supervised practice plan in consultation with the supervisee and in my professional opinion consider the goals and planned activities to be appropriate to the identified needs.

Signature of supervisor: _____ Date: _____

Name of supervisor: _____

I have read, understand and agree to all the goals and planned activities included in this supervised practice plan.

Signature of supervisee: _____ Date: _____

Name of supervisee: _____
